

Values / ± 10 % at 930 min
 Delivery rate depending on the velocity of the product.

Performance Chart No.	Type	Viscosity mPas (cP)
1 2 3	A	1 1.000 – 2.000 20.000 – 25.000
4 5 6	B	1 1.000 – 2.000 20.000 – 25.000

Recommended for transferring
Thin to highly viscous, even pasty,
still free flowing substances.

Typical applications

A pump designed to meet the specific requirements of the
food, cosmetic and pharmaceutical industries.

The sanitary pump can be stripped down
in no time for cleaning and/or sterilisation. The stator
housing comprises a safety bar to protect containers and
to allow transfer operations from plastic inliners.

The pump is available in special version
with 3A approval: ground and polished, equipped with a
closed mechanical seal in stainless steel with sliding faces in
silicium carbide (SiC).

Available drive motors

Three-phase electric motors

Scope of supply

A complete eccentric worm-drive pump consists of:
drive motor, pump, stator and hose connection.
